

2026 User Meeting

Empowering Automated Laboratories: Integrating Experimentation with Data

The Environmental Molecular Sciences Laboratory (EMSL) and the Joint Genome Institute (JGI) are co-hosting a joint meeting on "**Empowering Automated Laboratories: Integrating Experimentation with Data.**" The Meeting is open to all; attendees from academic institutions, industry, funding agencies, and national laboratories are expected from around the world.

Registration for the 2026 Joint User Meeting is available at bit.ly/EMSL-JGIusermeeting2026. The Meeting plenary sessions will take place March 3-4, 2026, with poster sessions on both afternoons. Several workshops will be held on Thursday, March 5.

Benefits of Your Meeting Sponsorship

By participating in the joint User Meeting as a sponsor, you and your colleagues will have opportunities for high-quality engagement with global thought leaders in omics, data science, and technology development.

	Tier 1: \$1,000	Tier 2: \$2,500	Tier 3: \$5,000	Tier 4: \$10,000
