**23 classrooms offering Myco-Ed course  
450+ students completed**

Socheata Hour

"It is one of the most memorable and valuable experiences of my academic journey. I gained skills that support my career goals, particularly in the areas of machine learning and AI, while also deepening my understanding of what it means to work in a collaborative research environment."

"JGI is a User Facility, so being able to work on a project that has actual impact and seeing how my work was used by people around the globe, was powerful to me."

Masato Terasaki

## 2025 Intern Testimonials

**Univ of CA  
Merced**

**Alabama  
A&M Univ**

**Professional  
Goals**

Of the mentors surveyed, **50%** plan to include their intern's work in an upcoming publication or peer-reviewed paper

**Impact on 2025 Mentors**

"As a mentor, it felt good to bring some positive impact to the younger generation."

**100%** of the mentors surveyed would recommend participating in future mentoring opportunities to their colleagues

"My intern created a great demo in a small amount of time, it was a significant contribution to my research!"

## Growing Tangible, Tactical Skills Over the Summer
